"Dead On The Inside"

Visit "[Dead On The Inside](#)" on MotoLyrics.com

A dark place deep inside of me
Chemicals out of synchronicity
Watching the colors that you cannot see
Watch them bleed

But now I'm pouring down
These thoughts will not leave me

The things we used to hide
Have torn apart our lives
You can't control me cause I'm dead on the inside

Too much excess corrupting me

Your tired excuses will bury me
Your final wish to set me free, lets me breathe

Our lives, your lies

I looked to you for strength
And I felt alive
But when you lost your faith
And your reason to live
