"Am I Dead Or Still Not Born?"

I'm so faraway from here that you can't even think
Where the sun can not to bright and birds can't sing
There is no air to breathe and no light to see each other
No time, no day, no night you will never gettin' older

Am I still not born?
Or am I going to die?
I can't see a thing
Cause I fell I'm not alive

I forgot how sounds a noise I just listen my thoughts
Can't fell if it's cold or hot I'm not wearing any clothes
Don't remember the last time I saw an human face
Honestly I don't even know why I'm stuck in this place

Am I still not born?
Or am I going to die?
I can't see a thing
Cause I fell I'm not alive
