Some people say she looks different but boys would
like to play this game
Some old fashion tell her critics because some girls
would never do the same

She never gets worried and also I don't really care
Because I am falling in love with bald girl downstairs

She shaved she is smooth and she is all free to feel
and see the wind blowing
And it sounds good at least to me then now we know
where I am going

She never gets worried and also I don't really care

Because I am falling in love with bald girl downstairs

Hey no I guess you will not ever understand
Oh man I can't believe she wants to be my friend

She never gets worried and also I don't really care
Because I am falling in love with bald girl downstairs
She never gets worried and also I don't really care
Because I am falling in love with bald girl downstairs
