You used to pretend to be my friend / These days I had
money around
She said them she was my girlfriend / Just to not look
was living alone
He fakes a health partnership / While business has not
complication
They told just bullshits / Those liars never had a true
conversation

How can u live?
And not feel so bad?
With all that blame!
Inside your head!

Perhaps to ur mom u are a nice girl / Truth walks away
u r lil whore
If I decide 2 tell her what's real / When ur clothes was
spread on the floor
And for u I tell damn judas iscariot / Do u know what
happens 2 whom lies?
Hang yourself with a tight knot / Prepare to crawling
only angels can fly!

How can u live?
And not feel so bad?
With all that blame!
Inside your head!
