I see things that maybe you'll never understand
Demons with knives and swords in his hands
A supernatural fight between goodness and evil
Battles you can't see but I'm sure that's for real

Can't u see? Can't u see?

Fire and water mixed up with the wind blowing
An angel without wings from heaven is falling
Blasphemy is not the words you've might to say
Get down on your knees keep your faith and pray

Can't u see? Can't u see?

If the red team's win you should not feel so well
Cause the earth we just know will turn in to hell
Imagine you cryin' out blood over and over again
Starving and thirsty is nothing u'll feel besides the pain

Can't u see? Can't u see?
