Shuffler thoughts still bothering my head  
Remind me words Iâ€™ve should never said  
There is nothing in the past that would worth  
And maybe all the pain it wasnâ€™t the worst

Stay with me  
At place where nobody else will find  
Set me free  
Please just come and erase my mind

Itâ€™s not that I didnâ€™t get happiness and stuffs  
Old memories just make me spit all my guts  
Cause if it was bad brings me all, all the pain  
And if it was good I would never get it again  
Stay with me  
At place where nobody else will find  
Set me free  
Please just come and erase my mind

No I donâ€™t wanna have an empty life  
But Iâ€™s better start different this time

Stay with me  
At place where nobody else will find  
Set me free  
Please just come and erase my mind

Stay with me  
At place where nobody else will find  
Set me free  
Please just come and erase my mind
