Look out my son, What r u pretendin' to be?
You hold that gun, You're not a hero you're a thief
Where do will u go?, When bombs are bursting in the
air
What's up bro?, The life is f***in' unfair!
Bite me bitch, We're gonna crap on your face
Don't give a shit, My lap is your favourite place
Tell your new friends, with master u never mess up
I'll burn your hand, Why don't u f**k shut up?

Get control of your life
What supposed to be mine
Don't give up yourself time
With the power of mind

Hey pretty girl, Just came and jerk me off
Around the world, It's just a light not a spot
And shake ur ass, So those guys stop to fight
Without gas, My car still going to fly
Don't ever stop, There is lot a things to do
Freezin' da clock, Don't walk without ur shoes
Watch out ur step, You got a headshot my dog
Son't try to bet, Your brain would spreaded on the floor

Get control of your life
What supposed to be mine
Don't give up yourself time
With the power of mind

Look out my son, What u pretendin' to be?
You hold that gun, You're not a hero you're a thief
Where will u go?, When bombs are bursting in the air
What's up bro?, The life is f***in' unfair!
Bite me bitch, We're gonna crap on your face
Don't give a shit, My lap is your favourite place
Tell your new friends, with master u never mess up
I'll burn your hand, Why don't u f**k shut up?
