You just broke up with me  
I miss your kiss  
The good smell of your hair  
Taste of your lips

Why can't you see this I'll always gonna find you  
Maybe in my dreams and everything I try to do  
Everyone knows it till the huge yellow star above  
Whom may deny? that my feeling for you is real love

But I can't do anything  
You'd left me here  
If u want me back someday  
Just call to me

Why can't you see this I'll always gonna find you  
Maybe in my dreams and everything I try to do  
Everyone knows it till the huge yellow star above  
Whom may deny? that my feeling for you is real love

Why can't you see this I'll always gonna find you  
Maybe in my dreams and everything I try to do  
Everyone knows it till the huge yellow star above  
Whom may deny? that my feeling for you is real love
