You just broke up with me
I miss your kiss
The good smell of your hair
Taste of your lips

Why can't you see this I'll always gonna find you
Maybe in my dreams and everything I try to do
Everyone knows it till the huge yellow star above
Whom may deny? that my feeling for you is real love

But I can't do anything
You'd left me here
If u want me back someday
Just call to me

Why can't you see this I'll always gonna find you
Maybe in my dreams and everything I try to do
Everyone knows it till the huge yellow star above
Whom may deny? that my feeling for you is real love

Why can't you see this I'll always gonna find you
Maybe in my dreams and everything I try to do
Everyone knows it till the huge yellow star above
Whom may deny? that my feeling for you is real love
