Don't you feel weird? When you say u'd already  
forgotten  
But then u realize that u will never unleash this knot  
Keep thinking and talking about something or someone  
Waste of time and worthless because it probably is  
gone

Are we so blind to see?  
Or are we just so dope?  
Cuz now I can't believe  
In any kind of hope

An opportunity always has hair hiding her face  
We usually dismiss it it's a clear true fate  
In silence she walks stays close then goes away  
And you really don't know if u get again someday

Are we so blind to see?  
Or are we just so dope?  
Cuz now I can't believe  
In any kind of hope
