My head was in the middle of your open legs
Whilst you were cheking out my hairy bags
I'ts weird we were doing this at public place
But even so we didn't hidden our face

You should be there to see
There is not easy it seems
I know what mean to me
Just nightmares or dreams

Realize if you figured out in a school classroom
Everyone looks at you because you were nude
So then your thing it's like a cell phone
You close your eyes and everything is gone

You should be there to see
There is not easy it seems
I know what mean to me
Just nightmares or dreams

Then suddenly if you could fly
Are something fun to do tonight?
Balls of fire coming out of my hand
I think they'll never really understand

You should be there to see
There is not easy it seems
I know what mean to me
Just nightmares or dreams
