Well it is impossible to forget  
The unstoppable crying we have met  
Children crashing and burning themselves toys  
Don't even care if they're girls or boys

I don't wanna hear ya  
I don't wanna see anymore  
Stop the pain now  
It's opening my sores

Soldiers dying of thirst and starving  
While politicians were smiling  
With your pocket full of money  
It's just a another stupid day

I don't wanna hear ya  
I don't wanna see anymore  
Stop the pain now  
It's opening my sores

Guns and bazookas shots to kill  
No matter where in valley or hills  
Our weapons just ourselves scream  
I never wanna see again that scene

I don't wanna hear ya  
I don't wanna see anymore  
Stop the pain now  
It's opening my sores

You never heard about that  
And you don't really care I know
