"What If"

Visit "[What If](#)" on MotoLyrics.com

What if you had to try?
For all eternity not cry
What if you had to feel?
That's nothing around you is for real

What if you had to see?
Something you would never be
What if you had to choose?
When there is nothing to loose

What if you had to lie?
For someone you love don't die

What if you had to run?
At some war without a gun

What if you had to hurt?
Me on myself birth
What if you had to say?
Something you've been ashamed

What if you had to buy?
Your home instead o' mine
What if you had no time?
To say all the words inside
