Song: L-L-Love
Album: Monster in law

Flirting with disaster
You're the one I'm after
Think I found my destiny
Luxury and danger
Rapture me my stranger
Hold me close, don't let me be

I could fly on the wings of my heart
Deep inside, I've been falling apart
L-L-Love, There's a magic in you
And I'll be under your spell, L-L-Love

Hazy, crazy feeling
You're the thief I'm stealing
Locked you up and lost the key
Flying on the wings,
Flying on the wings,
Flying on the wings of my heart

I could fly on the wings of my heart
Deep inside, I've been falling apart
L-L-Love, There's a magic in you
And I'll be under your spell, L-L-Love

Need your touch, it's what I'm after
Fatal kiss, your embrace
You got me baby, You've got me baby
Fatal kiss, your embrace

I could fly on the wings of my heart
Deep inside, I've been falling apart
L-L-Love, There's a magic in you
And I'll be under your spell, L-L-Love
L-L-Love, L-L-Love, L-L-Love...
