It's hard to say goodbye, it hurts to be alone
And all that is left is a memory
To love and to keep as a part of me
It's you, no one else but you
Say what can I do I miss you so

It's hard to let you go, it's hard to ease my pain
But I'll do it all for you and I know you'll do the same
And how hard it all may seem
You're always in my dreams

We we will meet again
Far beyond the stormy weather
Far beyond the cloudy skies

We we will meet again
When we do we will last forever
When we do we will stay together you and me

We were meant to be in perfect harmony
And everyday that goes by is reminding me
There're so many things that you left by me
You see and every little thing has it's own story

They're tellin' me an hour seems so long
Help me to be strong
You were the meaning of my life
And I can't go on without I am shouting out my pain
There must be a way

We we will meet again
Far beyond the stormy weather
Far beyond the cloudy skies

We we will meet again
When we do we will last forever
When we do we will stay together you and me

As a friend, as a mother
As a beautiful flower
As a wife, as a lover
You had me climbing up your tower

As my guardian angel
Under your protection
As the light of my life
You gave me so much affection

I'm so lucky that once I got to know you
It was hard for me to say it
But I totally adored you
Is life fair I'll never stop believing

Our time will come
Because there must be a meaning

We we will meet again
Far beyond the stormy weather
Far beyond the cloudy skies

We we will meet again
When we do we will last forever
When we do we will stay together you and me

We we will meet again
Far beyond the stormy weather
Far beyond the cloudy skies

We we will meet again
When we do we will last forever
When we do we will stay together you and me
