Where are you?
Where are you?
I'm callin' your name
Where are you, baby?

Some meet in the strangest places
Some meet in the place that they work in
Some meet in their own backyard

Some say it was love at first sight
Some say that they never could imagine
They say that they'd find the right one, oh baby

Where are you?
When I'm calling your name, oh baby
Where are you
When I'm here all alone, where are you?

Where are you?
When I reach out my hand, oh honey
Where are you when I need you most, oh baby
Where are you?

Some meet at the supermarket
Some meet on their summer vacation
Some meet at the local bar

Some say it was meant to be them
Some say that they waited for a long time
They say that they found the right one

Some meet 'cause they like each other
Some meet for a little bit of lovin'
Some meet in their father's car

Some say they're getting married
Some believe in trust and understanding
They say that they found the right one, oh baby

Where are you?
When I'm calling your name, oh baby
Where are you

When I'm here all alone, where are you?

Where are you?

When I reach out my hand, oh honey

Where are you when I need you most, oh baby

Where are you?

Where are you?

When I'm calling your name, baby

Where are you

When I'm here all alone

Where are you?

When I reach out my hand, oh honey

Where are you when I need you most, oh baby

Where are you? Oh baby

There is this one song I got stuck in my head

And it keeps on going on and it's makin' me stronger

One song I got stuck in my head

And it makes me feel good so I can hold on much longer

One song I got stuck in my head

And it keeps on going on and it's makin' me stronger

One song I got stuck in my head

And it makes me feel good so I can hold on much longer

Where are you?

When I'm calling your name, oh baby

Where are you

When I'm here all alone, where are you?

Where are you?

When I reach out my hand, oh honey

Where are you when I need you most, oh baby

Where are you?

Where are you? Where are you?

Where are you?

One song I got stuck in my head

And it keeps on going on and it's makin' me stronger

Where are you? Where are you?

Where are you?

One song I got stuck in my head
