Streak of lightning coming down the highway
turn around and watch it go
switch on the lights
put on the highbeams
better find a preacher on the radio

I like to drive at 105
its just how fast i got to go
i got the gears and i got the motor
aint no reason to go slower
and i like the speed i like the motion
i like the rockin machine
i like to drive at 105
better hurry up if you wanna catch me

neon sign flashin by like something in your eye
Elvis on the radio almost makes you cry
falshing lights in the rearview you know
payin many mile step on the gas pull out to pass and
leave em far be hind

I like to drive at 105
its just how fast i got to go
i got the gears and i got the motor
aint no reason to go slower
and i like the speed i like the motion
i like the rockin machine
i like to drive at 105
better hurry up if you wanna catch me

you shouldnt ought to done it honey you shouldnt
ought to run around
but two cant be on the highway darlin and i'M THE ONE
THATS OUT THERE NOW

and i like the speed i like the motion i like the rockin
machine i like to drive at 105 better hurry up if you
wanna catch me better hurry up if you wanna catch me
