With our hearts
So full of sincere exaltation
We, Your people
We come before You with celebration, hey

Like the angels fly around Your throne
We're crying holy
With our whole hearts, we praise You alone
We're crying glory

As we dance before You
Praise You for the breakthrough
We sing Your praise
Sing because You are great

Celebrate Your excellent name
No one like You, faithful and true
Sing because You are great
Lord, we love Your name, we love Your name

I just praise You with sounds of glory
We feel Your power this very hour
Send Your presence, Lord
Just like the fresh rain begins to shower

Like the angels fly around Your throne
We're crying holy
With our whole hearts, we praise You alone
We're crying glory

As we dance before You
Praise You for the breakthrough
We sing Your praise
Sing because You are great

Celebrate Your excellent name
No one like You, faithful and true
Sing because You are great
Lord, we love Your name, we love Your name

As we lift our hands up high
(We bless You)

Truly bless You for Your presence
(Lord, we bless You)

And Your name, we glorify
Mighty God, mighty God
In the song and in the dance
(Forever)

Not ashamed to give You reverence
(Lord, forever)
And forever we will say
You are great, You are great

As we dance before You
Praise You for the breakthrough
We sing Your praise
Sing because You are great

Celebrate Your excellent name
No one like You, faithful and true
Sing because You are great
Lord, we love Your name, we love Your name

Your Name is great
We love Your name, Your name
Your name is great
We love Your name, Your name
