[Verse 1]

Born to give my very best  
To the One whose willingness  
To give His life He just said yes  
And here's the reason  
He saw me out there all alone  
So for my sin He did atone  
He purchased me I'm not my own  
I wanna please Him

[Channel A]

So now I serve Him  
Who brought me and is able to keep me all together  
In the presence of His glory I found  
That for my life His good and perfect purpose was  
designed  
To bring me to the place where He has need of me  
So I want my destiny, yeah

[Chorus]

Can't settle for half or nothing short  
Of what You made me to be or want me to be  
'Cause I want it all  
As I look around  
The time is now  
My mind is telling me  
Gotta be gotta be destiny

[Verse 2]

Not called to sit upon the shelf  
He did not die just for His health  
And with the time we have  
Let's waste not all on selfish reasons  
But we must seek to please Him first  
Find His will upon the Earth  
When they look back from death to birth  
They'll say they've seen Him

[Channel B]

So we must serve Him  
Who brought us and is able to keep us all together  
In the presence of His glory we found  
That for our lives His good and perfect purpose was  
designed  
To bring us to the place where He needs us to be  
Do you want your destiny, come on

[Repeat Chorus 1x]  
[Verse 3]  
Hold on don't let go  
To give up now would be jacked up for sure  
The journey is long and hard is the fight  
But we trust in the Lord in the power of His might  
There's power in His Word  
And He's gonna see us through  
So keepin' the faith is what we've gotta do  
To believe our God is more than able, able  
[Bridge]  
Fight the good fight as we press towards the mark we  
push in  
That we obtain His favor  
So we will know and have true confidence that, the  
prize  
Of His call is much greater  
Say I really want my destiny come one say  
I want it  
[Vamp]  
I want it  
Receive it  
I need it  
The will of God for my life, yeah  
Gotta have it  
Can't live without it  
No doubt about it  
The will of God for me, yeah, yeah, yeah  
[Repeat Vamp 2x & Verse 3 simultaneously-Out]
