Verse 1- I've lost some joy, I've some time, now
it feels like I will lose my mind, journeyed long,
and lost my way, and now it feels like I've lost
is all I say, searching here and over there, for the
things I lost, I dont have them anymore.

Chorus-But I will find a way to lift up my hands,
I will find a way to worship You Lord, and
though my heart is low I'll find a way to give
You praise, I will find a way to love You more.

Verse 2- I've lost so much, down through the years,
it seems that all I find here lately is a face so full
of tears, I search each dark and empty place,
for what I lost, where is it, I dont know.

Chorus- But I will find a way to lift up my hands,
I will find a way to worship You Lord, and
though my heart is low I'll find a way to give
You praise, I will find a way to love You more.

Bridge- One thing I've not lost, is the will to move
ahead, and I've kept a faith that trust in You
Lord, and I've find a way down within myself,
a love for You Lord that over flows, and I know
that I can love You more, with every lost, and
through it all

Chorus- I'll Find a way to lift up my hands, and
I'll find away to worship You Lord, and though my
life is broken, I'll find away to give You praise,
I'll will find a way to love You more.

Bridge- I'll find way, I know I will, I know I will
A way to worship You because Your worthy, and
though my broken I'll find a way to give You
praise, I will find a way, I will find a way, to
love You more.
