Just to be close to you  
Just to be close to you  
Just to be close to you  
Is my desire

Just to be close to you  
(To the King of kings)  
Just to be close to you  
Just to be close to you  
Is my desire

When I come into your presence  
And I'm down on my knees  
When I'm close to you, Jesus  
I know that You're all that I need

Just to be close to you  
(To the King of kings)  
Just to be close to you  
Just to be close to you  
Is my desire

Just to be close to you  
(To the King of kings)  
Just to be close to you  
Just to be close to you  
Is my desire

Just to be close to you  
(To the King of kings)  
Just to be close to you  
Just to be close to you  
Is my desire
