[Verse 1]

Destiny just a few more steps just a little  
But an irate enemy is in the middle  
And swearin' (sayin') there's no way I will complete it  
But I ain't playin' 'cause I know he is defeated so

[Channel A]

Before fear takes it's part  
I've branded Your Word in my heart  
So whenever I feel dismayed  
I say to myself

[Chorus]

(Let me praise You now)  
Lord I praise Your name because You are who You are-  
(Let me praise You now)  
I lift You higher every night and day-(Let me praise You  
now)

Lord Your Word is so true and we know this by far  
So we're taking this time to give You all the praise  
(Let me praise You now)  
(Let me praise You)

[Verse 2]

Rejoice make sure the Lord is praised in the battle  
Get back up if you get knocked off the saddle  
Heartbreak may come in your life just to be a  
distraction

But let's trust in the name of the Lord

[Channel B]

For His counsel is sure  
His joy will help us to endure  
Each and every trial and pain  
So before fear takes it's part  
Let's hide the Word deep in our heart  
And if ever we feel dismayed just remind yourself

[Vamp A]

(Let me praise You now)  
Lord we praise Your name because You are who You  
are-(Let me praise You now)  
We lift Your name above the heavens high-(Let me  
praise You now)

Lord we glorify You and we know this by far  
There's no way we could hide from Your all-seeing eye

[Vamp B]

Lord we praise Your name because You are who You  
are-(Let me praise You now)  
We lift Your name above the heavens high-(Let me  
praise You now)  
Lord we glorify You and we know this by far  
There's no way we could hide from Your all-seeing eye  
(I) Cannot compare no one there's no one like You-  
(Nobody)  
No one that we've seen in all our days-(Nobody)  
No one else can do for us the things that You do  
So we're taking this time to give You all the praise  
Your name is Holy  
Not to be taken light  
Mountains tremble at the sight of You-(Come on)  
Your works are perfect marvelous in our sight  
When we think of all the power we are  
Thinking of You  
Let me praise You right now  
Let me praise You now  
Your works are perfect marvelous in our sight  
So we're taking this time to give You all the praise  
Your name is Holy
