Alright alright
Put your hands together in this place
Yeah yeah

Here we are, let's get on one accord
Leave all your problems on the outside
To be consumed with the Holy Ghost fire
Open up your mouth and lift the name of Jesus higher,
say

Are you ready for your blessing? Are you ready
Are you ready for your miracle?
For the chains that come from the enemy
Are utterly destroyed when the praises ring, so say

Hallelujah, thank you Jesus
He's exalted forever so let the praise begin
Lord I love you, no one above you
Just put your hands together and let
Let the praise begin
Yeah, yeah, yeah, yeah, yeah, yeah

I know it might be tough to get yo praise on
Trials of life been crushing you all week long
If you don't have a reason to praise him let me give you
one
He gave you a brand new mercy with the rising of the
sun, say

Are you ready for your blessing? Are you ready
Are you ready for your miracle?
For the chains that come from the enemy
Are utterly destroyed when the praises ring, are you

Are you ready for your blessing?
Are you ready for your miracle?
For the chains that come from the enemy
Are utterly destroyed when the praises ring

Hallelujah, thank you Jesus
He's exalted forever so let the praise begin
Lord, I love you, no one above you

Just put your hands together say it let the praise begin

Hallelujah, thank you Jesus
He's exalted beyond measure say let the praise begin
Lord, I love you, no one above you
Just lift our voice together say let the praise begin

Are you ready for your blessing?
Are you ready for your miracle?
For the chains that bind up the enemy
Are at your disposal when your praises ring

Are you ready for your blessing?
Are you ready for your miracle?
For the chains that come from the enemy
Are utterly destroyed when your praises ring

Raise up, send the praise up
Raise up, send the praise up
Raise up, send the praise up
He's here right now, c'mon

Raise up, send the praise up
Raise up, send the praise up
Raise up, send the praise up
He's here

I don't care what care what you gotta do
But what you need to know is victory

Is in Your praise, is in Your praise
Is in Your praise, is in Your praise
Is in Your praise, is in Your praise
Is in Your praise, is in Your praise

He's here, He's here
He's here, He's here
He's here, He's here
He's here
