(Verse 1)

The day has passed
And darkness comes to settle in, Ooh no oh
Confusion rolls in like a fog
And I can't see my way
Now doubt believes
It can make my faith seem paper thin, Ooh no oh
The peace and joy that I have known
Has been replaced

(Channel)

(This time) This time with tears and sadness
(Midnight) The midnight for the day
(Sorrow) Sorrow instead gladness
But with all that is in me I'll still say

(Chorus)

That I will praise Him through the night
And I will worship in the fight
Praise Him forever
Because I know that He's worthy
Praise Him over the adversary
We'll overcome

(Verse 2)

The wicked one
Whose fury runs with anger deep, oh, oh, oh
Destruction is his only goal
Against our side
With hatred strong,
He demands we declare defeat, no, oh
He says he's won
But we all know that he's a lie

(Channel 2)

When fear moves our foundation

(Just know that God) Know God has not forsaken
(He Will Bring) He'll bring a brighter day
So let me hear the people of God say

(Repeat Chorus)

(Vamp A)

When the battle gets too much for me to take
We're gonna praise Him
When I can't see through the wind and rain
We're still gonna praise Him yes we will
In my darkest hour
We're gonna praise Him still
When it's weary, dark and lifeless
We're gonna praise Him
When hope seems like it's almost gone
We're still gonna praise Him yes we will
In my darkest hour
We're gonna praise Him still

(Vamp B)

We'll overcome when we praise Him
We'll overcome yes we will
We'll overcome keep on praising
We'll overcome
Praise Him forever
For I know that He's worthy
Praise Him over the adversary
We will overcome
