"When You Praise"

Visit "[When You Praise](#)" on MotoLyrics.com

When you praise, when you praise
There should be a fire in your heart
Hands up raised, when you praise
Consuming every part because you know

The God we serve will make
His presence known, when you praise
When you praise

When you praise, when you praise
There should be a fire in your heart
Hands up raised, when you praise
Consuming every part because you know

The God we serve will make
His presence known, when you praise
When you praise

When we think of how wonderful
And merciful and kind our God has been to us
Then we know every glory, Hallelujah
He deserves, when you praise

When you praise, when you praise
There should be a fire in your heart
Hands up raised, when you praise
Consuming every part because you know

The God we serve will make
His presence known, when you praise
When you praise

Praise will bind, confuse and break the enemy
And cause his hands to be still
So we raise our hands in total victory
We know we triumph in His will

When we praise, when we praise
There should be a fire in your heart
Hands up raised when you praise
Consuming every part because you know

The God we serve
Will make his presence known
Oh, when we praise, when we praise
When we praise

Let us praise, let us praise with fire in our heart
Hands up raised let us praise
Consuming every part because you know
The God we serve will make His presence known

When we praise, when we praise, when we praise
When we praise, when we praise
There is none like you

When we praise, when we praise, when we praise
When we praise, when we praise
Our God is an awesome God, yeah

When we praise, when we praise, when we praise
When we praise, when we praise
Bless the Lord, oh, my soul

When we praise, when we praise, when we praise
When we praise, when we praise
There is none like you

When you praise, when we praise, when we praise
When we praise, when we praise
Our God is an awesome God, yeah

When we praise, when we praise, when we praise
When we praise, when we praise
Bless the Lord, oh, my soul

When we praise, when we praise, when we praise
When we praise, when we praise

Well, you can put your hands
In here tonight if you want to
