### "Merry Go Round"

Visit "[Merry Go Round](#)" on MotoLyrics.com

I believe life is a roller coaster  
I believe in my little dream I'm superman  
See the world is gradually getting smaller  
As I fly no helter skelter's dragging me down  
I go round

So make the most stop burning the toast  
Watch the wheels that roll me over  
Doctor, doctor leave it to me - can't you see  
I'm floating through the clouds

Riding my merry-go-round

You and i, we could pave the way in silver  
Say good bye hand in hand together we go  
Cause I know  
So make the most stop burning the toast  
Watch the wheels that roll me over  
Doctor, doctor leave it to me  
Cant you see I'm floating through the clouds

(clouds) riding my merry-go-round  
Merry-go-round
