Buying for....time..
Buh buh buh buying for....time...
Buy your time,with useless alabies
Naievity is the enemy
They summon me the odds of me some things,
And you can't turn your eyes away

[Chorus]
From today,u got a room that's just been burning
You've got a globe that's just not turning
A target harder to obtain
Is Today,winning or losing your not learning
Giving it all to make your earning
Because tomorrow's not to blame,for today

Pay no mind,when your in paradise
Utlility is your extacy
They summon me the odds of me some things,
And you can't turn your eyes away

[Chorus]

And you can't turn your eyes away..

[chorus]
