I can see the tears in your eyes, when you cry  
You will feel the pain when I'm done  
The paint is splashing all over your body  
You better run and hide, you better hurry  
Ohoo oho you better hurry

So come out come out were ever you are  
I'm going to shoot you down with my paintball gun  
Oh come out come out were ever you are.  
I'm going to shoot you with my paintball gun

I can see it in your eyes you are afraid  
And you will know it in your heart you will pay  
You don't have a chance when when the wilds come to town  
And we will never leave before you lay down  
Ohoo oho before you lay down

So come out come out were ever you are  
I'm going to shoot you down with my paintball gun  
Oh come out come out were ever you are  
I'm going to shoot you with my paintball gun

You scream my name and begging fore mercy  
You're crawling in the dust a hot summerday  
I'm going to shoot and paint you all over  
And all you can do is scream game over  
Ohoo oho game over

So come out come out were ever you are  
I'm going to shoot you down with my paintball gun  
Oh come out come out were ever you are  
I'm going to shoot you with my paintball gun  
So come out come out were ever you are
