Kisses that kill me are my friends
I'm wasted on nothing now but you again
Shifting the colors from room to room
I'm burning your images with my attitude

Naked desire blows me away
Haven't you noticed?

I won't ever go, let you suffer no pain
Like bottleflies
I won't be the same in this vaseline cage
Like bottleflies

Sweet smell of roses around me
Trapped in the moments of fantasy

Breaking my mind from myself
So hard to find

Hey, I won't ever go, let you suffer no pain
Like bottleflies
I won't be the same in this vaseline cage
Like bottleflies

I won't ever go, let you suffer no pain
Like bottleflies
I won't be the same in this vaseline cage
Like bottleflies

I won't ever go, let you suffer no pain
Like bottleflies
I won't be the same in this vaseline cage
Like bottleflies
