The girl with the rainbow eyes and hair
Is floating around me, floating around me
Feel the honey breeze I hear the beautiful
Love birds singing the love words
Dancing round the tree, she's singing

I'm so free loving everything
Love is a strawberry
Shut my eyes cover me with cream

Love is a strawberry

The psychedelic sun burns on the candyfloss
Clouds flying by now
She belongs to me and I see
She wants to excite you, she wants to ignite you
Dancing round the tree shes singing

Chorus repeat
