(Sunshine)

(Sunshine)

There goes my high, little baby
And there goes my little baby
And here's to you, my fine looking friend
And here's to the one who laughs at me

She's my imagination
She's my, my one temptation
So celebrate the one you love
And make my day and come with me

Won't you give me some
(Sunshine)
All I need is sunshine
(Sunshine)
All I need is sunshine

And here's to you, my fine looking friend
And here's to the one who laughs at me

Won't you give me some
(Sunshine)
All I need is sunshine
Give me some
(Sunshine)
All I need is sunshine

Won't you give me some
(Sunshine)
All I need is sunshine
(Sunshine)
All I need is sunshine
