Alright check it see

a lot of times rappers use the word thug very loosely like they used the word love you know what I'm saying and people outside of the circle start to believe that thugs are unintelligent people who don't really know nothing but I'm gonna show them different I'm gonna show them how intelligent and how smart a thug is Check it out, a thug will see like a rapper right with a deal, he'll see

or go to one of the shows and see that he really don't got no muscle

he got lyrics you know good deal, driving in limos and all that but he ain't got no muscle his crew is weak, so what he'll do is he" slide in and say, "look here man you know what I mean, I've been feeling you're shit you spit that gangsta shit and he'll start planting a seed in his head that he's the same type of nigga as a street nigga which is not so and what happen then is that this nigga starts spitting on his record that he's a killer, he's a gangsta, he's selling xyz, and the bottom line is he's a cold coward and being a coward you know he's going to fall victim to it cause he's scarred to go against a nigga who's a real killer anyway

So this nigga get's up on them and starts telling em all these stories about how he's live and all that and when it's time to throw down and put your hands up he ain't gonna do that, he ain't gonna bust his gun, he ain't gonna do shit but the fucked up part is he'll get the blame, the law will come at him, he'll pay for all the lawyers he'll be the one sitting in jail with all that street credibility but he really ain't that his heart really ain't there. So my point is who's the smart motherfucker here, the thug who sits back and not only does he know about the music business but he got in for free he ain't have to do noting for so now you got a bunch of thugs in the game and I respect that more than that chump ass mo fucka gettin on the record taliking all that other bullshit
