I'm not going hungry anymore

Your sweet love's what I've been hungry for
But since we locked our hearts together now my table's
set forever
I'm not going hungry anymore

Happiness is where you are and that's all I need to
know
I'm gonna plant a tree of love just sit back and watch it
grow
I'm giving loving everything I got I'm struck awhile the
iron is hot
I'm not going hungry anymore

Happiness is where you are...
Oh no I'm not going hungry anymore
