Super Kind Of Woman

I get the greatest feeling  
A simple kind of feeling  
And it's because I've got a  
Super kind of woman

She came to me so gently and so swee-eet  
Easy loving swept me off my fee-ee-eet  
It was so natural for me to love her  
I was always thinking of her  
With her beside me now that's all I need

With her, I get the greatest feeling  
A simple kind of feeling  
And it's because she is a  
Super kind of woman

I love that girl with all my heart and sou-oul  
With her I am no longer half a who-o-ole  
She gives me strength to face tomorrow  
She comforts me in times of sorrow  
With her beside me life is worth it all

With her, I get the greatest feeling  
A simple kind of feeling  
And it's because I've got a  
Super kind of woman  
A super kind of woman
