verse1

Tell me why you want to go
And why you feel so bad
Tell me 'cause I need to know
The reason why you 're sad
I will try to guide you
And make things right
The road we share is long and steep
The ocean wide and deep

chorus:

Forget all the tears and sorrow
I'll show you the world tomorrow
I've been where you are right now
But I made it through somehow
I'll tell you a different story
We're lost without hope and glory
You'll see tomorrow with me

verse2

I don't know where trouble goes
I don't know what to say
Why it harms the sweetest rose
But trouble leaves today
I will always hold you
No matter what
This narrow road was made for two
It was made for me and you
Hope you know I'll understand
I was freed by own hands
We're a different story
Hope and glory!
You and me!
