The kid next door
The kid next door
Now he ain't coming home no more

I watched him grow
I watched he go
Now he ain't coming home no more

He was a high school football star
And that boy really loved his car
I still can hear that loud hip hop
As was coming down the block

Remember there in my garage
In his desert camouflage
He told me not to worry none
He'd be back when his work was done

The kid next door
The kid next door
Now he ain't coming home no more

I watched him grow
I watched he go
Now he ain't coming home no more
