I know that you've been hurt before
but baby
you won't be hurt again no
'cause I'm a different man
I wish you could understand
baby take my hand

Chorus:

Leave the past behind
for this wonder
Don't look back again
Can't you see this start might be a new beginning now
For your broken heart

I promise you'll be safe with me

forever you'll never be alone
I know the pain you feel
I know that broken hearts can heal
I can make it real

Chorus

When I hold you in my arms
When I feel you understand me
Nothing else makes sense at all
When you're far away from home
When you say that you are lonely
This is for your broken heart

Chorus
