"With You All The Time"

I live beneath the heart
I watch you from the dark
Im every breath, Im every dream
Ive known you forever
Ive followed you everywhere
Im every scar of who you are
When you think you're alone and you cry cause the
worlds unfair
You can rest assure, cause Im always there
(CHORUS)
Even when you feel like you don't belong
Even when you fall and it all goes wrong
Know that Im with you, Im with you all the time
Say a little prayer for the restless heart, we shall never
ever drift apart

Know that Im with you, know that Im with you... with you
all the time
Ive walked your evey road
Im laughing when you smile
And when you cry, I cry too
I made you a promise that I shall forever keep
Youre on your own, but not alone
Whenn yourre down, and the world tells you no one
cares
You can rest assure, that Im always there
CHORUS
Save a little love for me, you'll see (x3)
