Right from the sky we are born crazy
Right from the sky we are born to be wild
Right from the sky we are born crazy
Right from the sky we are born to be alive

Day by day same of story
Same of life starts to get boring
Always working, always strained
Gotta be quick cause I can't be late
Always moving in one direction
Searching for this thing

Can't get lost, gotta be on the track
When you move ahead you can never look back
Then time is come when you gotta break free
To make the choice to be wild, to be happy
How fun. And don't let your mind go flat
That's and that's what is said
Grab it, taste it, hold it, make it
Don't think about the chance, just take it
Life is short, no time to be lazy
Get on your feet, it's time to get crazy

Don't walk that, we walk like this
Break the rules, I know you won't miss
Just be crazy, just be wild
Just be free like an innocent child
Show the world, you don't give a damn
Don't let society ruin your plans
Don't be afraid to say what you feel
Take a little break, forget that it's real
Let the masses go their own way
You go your way, I'll go my way
Let your mind control your movement
Who cares that there's no room for improvement
Jump, shout, dance, scream
Activate you act in your dreams
Remember this when it all seems hazy
Get on your feet, it's time to get crazy
