"Electric Ice"

Visit "[Electric Ice](#)" on MotoLyrics.com

We put lights in the chains, baby, that's what's up
Strobe lights in the range, baby, that's what's up
High beams in the bracelets, that's what's up
Electric diamonds, baby, that's what's up

We put lights in the chains, baby, that's what's up
Strobe lights in the range, baby, that's what's up
High beams in the bracelets, that's what's up
Electric diamonds, baby, that's what's up

Aiyo, I pull up in some big shit, poppin' B.I.G. shit
No stearin' wheel, Benz toyin' wit the joystick
Park the spaceship, special effects
On the bracelets, ice jumpin' out like, 'The Matrix'

Who light up for than Vegas
Nigga lookin' like Times Square on New Years, when
the ball drop
My neck is like a light show on Fourth of July
Both wrists like fireworks lightin' the sky

Private airports, Air Force One's untied
Blunt in my mouth, stretch now, you waitin' outside
Shit, even when I tuck it in, it blink through the shirt
How does it work? Bitches askin' how much it's worth

Killin' eighth street, Ferrari drop, niggas'll clock
Bitches'll stop and waive, high blondin', bitches to
watch
Is that lights on ya stage, that ice on ya chain?
Yo, I'm C.O., Other People Money type thing

Now haters in the game wanna take my place
Live my life, wish they could take my face
Fuck my wife, wish me death to rock my lights
But that's the price of fame, Electric Ice

We put lights in the chains, baby, that's what's up
Strobe lights in the range, baby, that's what's up
High beams in the bracelets, that's what's up
Electric diamonds, baby, that's what's up

We put lights in the chains, baby, that's what's up
Strobe lights in the range, baby, that's what's up
High beams in the bracelets, that's what's up
Electric diamonds, baby, that's what's up

Floss out, strawberry lights, lavender life
More money than Blake character's wife
Lady ice criminal, rock minerals
Bitches can't stand it, Electric Ice, lookin' transparent

You ain't gettin' no brighter, a hundred watts in the
bezel
The face of an angel wit' the body of a devil, diamonds
rock like glaciers
At the tennis courts wit high beams and tennis
bracelets
Blindin' Venus, ha ha ha ha

Ten days out the summer, put them blazers up
Ninja bike night ridin' wit' my helmet up
Sock on my Nikes, look at bitches clockin' the lights
Go ahead and touch that and get the shock of ya life

Who that nigga over there wit' the glow in his chest
It gotta be X, niggas stay flirtin' wit' death
Lookin' like I got a Christmas tree around my neck
You try to cop that, by Jacob ain't got those yet

Wires inside to shine, kid the hottest design
Try to define a nigga that's inspired to grind
Yesterday my lights was green, today they red
I turn the bracelet off, before I goes to bed, Electric Ice

We put lights in the chains, baby, that's what's up
Strobe lights in the range, baby, that's what's up
High beams in the bracelets, that's what's up
Electric diamonds, baby, that's what's up

We put lights in the chains, baby, that's what's up
Strobe lights in the range, baby, that's what's up
High beams in the bracelets, that's what's up
Electric diamonds, baby, that's what's up
