Lover, lover on the line.
Call me, call me anytime
Tell me what I like to hear
Make me feel like you are near
On the phone you make me sweat
You make my body oh so wet
Tell me what is on your mind
'Cause you're my lover on the line

Lover on the line.
You want see me but you're blind
Try to touch me, touch me with your mind
Love me on the line.
For this unit you are mine
I'm your lover, lover on the line
If you tell me all your dreams
I'll satisfy your needs (Talk to me, just talk to me)
If you keep on holding the line
I'll tell you all my dreams (Talk to me, just talk to me)

I can see you in my mind
I can hear you bump and grind
Girl I like the way you moan
When you're on your telephone
Don't be afraid now, don't be shy
You can feel me if you try.
I can have you anytime
'Cause you're my lover on the line

With the satellites and through the space
I talk to you, a voice without a face
With the satellites and through the space
I'm the you love and you embrace

- Hello... Hello... Talk to me... You're me lover on the
line

With the satellites and through the space
I talk to you and my voice hesitate
