PAUL RODGERS

It's like a soft caressing sea
Or making love in harmony
Or the centre of a starry galaxy
It's like the richness that's inside
The one I'm trying to describe
Or the living water stretching far and wide
Searching for a shadow in the morning sun
Playing with your woman when there's work to be done
People, won't you listen when I tell the truth
I give her all my sugar, she's got such a sweet tooth
yeah yeah
It's like a sound that rests my soul
Or like a part that's now a whole
Or as something that is burning bright as gold
I want her near me everyday
Then I want to hear her say
There is something here between us as we lay
Searching for a shadow in the morning sun
Playing with your woman when there's work to be done
People, won't you listen when I tell the truth
I give her all my sugar, she's got such a sweet tooth
yeah yeah
