FRASER/RODGERS

Help me to repair
Things I have done wrong
Help me to find a way
To get where I belong
All you can say
When you're feeling this way
Is that somebody needs you
And wants you to stay
And all you can do
When your something is through
Is take all your time
Don't let it get you blue
Help me to repair
Things I have done wrong
Help me to find a way
To get where I belong
There' too many people
In this whole emptiness
Trying to find
A little happiness I hope
Too many people
Just hiding their face
And I'm hiding my face
In this lonely lonely place
Help me to repair
Things I have done wrong
Help me to find a way
To get where I belong
If you need any help baby
To maybe open your mind
Just give me a call
And I'll be right there on time
Just give me one reason
To stand in your light
And I would stand in your light
Till my night is right
Help me to repair
Things I have done wrong
Help me to find a way
To get where I belong
Oh! To get where I belong

Gonna get where I belong
Gonna get where I belong
