always drunk at your parties, and at the disco. she's making enemies with everyone. because she's not the prettiest and she's not the sexiest. but she keeps her backpack filled with escape plans. maps for big disasters and ways to get there faster. she's got some places she can go. when she wants to be alone. hey i'm really sorry if i made you cry. like all the stupid things i keep doing i have no reasons why. always drunk at your parties, and at the disco. she's making enemies with everyone. because she's not the prettiest and she's not the sexiest. but she keeps her backpack filled with escape plans. maps for big disasters and ways to get there faster. she's got some places she can go. when she wants to be alone. hey i'm really sorry if i made you cry. like all the stupid things i keep doing i have no reasons why. if it's on then it's on. and if i'm wrong then i am wrong. and if she's gone then she's gone. then there's nothing i can do with this song
