[Biz Markie]

Yes indeed, yo bumble C  
You know the voice  
And you know I'm the choice  
But right about now I want to bring you a funky funky  
group  
That go by the name of Len, L-E-N  
And we going to do a little something like this  
Check it out, D Rock

[D-Rock]

I got Mumbles on the beats, me and Biz be rapping  
And when we gets together we makes it happen  
And if you find my rhyme book please don't bend  
'Cause I could kill a man with a jab of my pen  
I'm not a violent man, but hang with violent men  
Sometimes I like to chill and try to reach zen  
I gotta give peeps to a writer named Ren  
'Cause he's been a round since God knows when  
I think it's time for an introduction  
My name is D-Rock from the crew called Len  
Been in hip hop since the age of ten  
And I leave them I shock when I begin  
That's why I don't front on my first impressions  
And I only write rhymes for my circle of friends  
It's like that and that's the way it ends  
Me and Biz Markie constantly set trends

CHORUS [Biz Markie] \*singing\*

Oh, what a beautiful day  
What a beautiful day, what a beautiful day  
Oh, what a beautiful day  
What a beautiful day, what a beautiful day

[Biz Markie]

Party people in the place I'd like to tell you a tale  
About a high powered girl, her name was Gail  
This is a funky fresh girly, she ain't stale  
Everytime I see her she makes me hard as a nail  
I'll examine while drinking Ginger Ale  
Watching Monty Python and the Holy Grail

Then I got a phone call, it never fail  
It came all the way from a college called Yale  
I said hello pretty mama, what up female  
Let's go on a cruise, or go on a sail  
But at first let me call up my man named Del  
I called him... but he was in jail  
We both went down and paid his bail  
It came back three weeks in the mail  
But one thing I forgot thss last detail  
That the Biz Markie will always prevail

#### CHORUS

[Marc Costanzo]  
Yo I want to say peace to all our crews east and west  
who rock the best  
Say what's up to G-Force, my man without the Porche  
And shout out to Seedman and McCarty for throwing  
those parties  
And how you doing to Johnnie Walker in Vancouver,  
how you doing Johnnie?  
And a special big beautiful day,  
to a special big beautiful label for giving  
us all that special special special beautiful cash
