Ima Tian destroyer like the kraken  
In my own lane but you can hop in this traffic  
Move like I got the whole world on my back but they  
cant break my axis  
Lookin like Atlas

Besides a few a lot niggas soundin stagnate/ plastic  
Couldn't go and by themselves a classic  
But they can go and cop a wip and crash it  
It seems rap s turned into a dumb nigga pageant

So I try and stand out from the goof balls  
I'm sayin yall can follow'em and let'em fool yall  
But I seeing through the so called proof  
My lanes accounted for which one should I bowl yall  
through

Who am I scared of ?  
Where's the competition  
He lookin like the part but I'm sensing something is  
missin  
Hopping on the mic's a quick way to become a victim  
He stingin like a bee till I turn him sonny liston

He askin for the friction  
I'll make his face a magnet for the mittens  
I'm sorta outta of the average wit the writtens  
I'm pavelik with the spitting  
Scratch many paccin with scriptin  
Plus the missle im packin the britches

The magic is here  
It seems I'm surpassing my peers/ these niggas need  
to white flag their careers

I'll turn ya party into prom night /knife to a gun fight ?  
Nah yall done brought a bunch guns to a bomb fight

I ain't worried bought the younger generation  
As far as the standards I set the sun is where I place  
them

Tell ya number one come and I'll erase him  
Put him on his pockets belly up and yellow taped shit/

Im the wrong round one to get in the ring with  
Bars university on the top of the dean's list  
Closed circle I'm seen wit  
Yall can come and claim the whole pie I'm only  
interested in takin the cream bitch

Yeah the wrong one for niggas to try and front on  
The wrong wolf for niggas to rty and hunt holmes  
Step wrong and get munched on  
Known for eating nigga lunch why you known for bring  
niggas food holmes

Black cap on poke the lens out the gazers  
Maybeline bars ya subject matter is made up  
Open ended challenge you can come and get filleted  
bra
