Vrs. 1

On a quest for my/

Lady love divine/

I've searched to find/

Anything 'except for God/

For to capture her/

Is Suicide/

Kamikaze, kind of in vein if not alive/

Ms. Nonbeliever/

I agree/

In this Jihad for beliefs/

Only one will survive/

So when weighing my odds/

Awaiting changes in time/

Still embracing my faith/

Fate has chosen a side/

Futile/

The look in your eyes/

You belong with me/

I'm not in denial/

And you won't be denied/

In this world where/
Worldwide, worth worsen/
As values die/
The people, they live, as their egos rise/
Preserving their flaws in their pride/
The humanity that you hide/
Inside/
Part reason I/
Do it! /
Hook
Vrs. 2
Out of touch/
How to clutch/
Just enough/
If not all, just at least/
On the cusp of /
Her cup of tea/
I Observe/
She sips/
With a trust/
And relief that permits her to freely/
Consume the leaves/
So truly the fool is/
Foolish, not to assume/
She believes what she sees/

For awkwardly, no, not at all would she/

Eat from a tree as isâ€¦I expect this means/

Perception/

Through deception/

We're accepted/

All with relative ease/

But in question/

Is my reverence/

Due to the efforts/

Employed to make her see/

Misleading her/

To be with her/

So my compromise/

Is my mission achieved/

I'd lied to me/

And honestly/

Ms. Nonbeliever/

She Made Meâ€¦ (Do it (whisper)) /

Vrs. 3

Times like/

Twilight/

My might may not/

Break Dae/

Till 12 comes round twice/

Though if her heart is/

Already covered in night/
My plight lies/
In letting 12 come thrice/
For redemption, my clock, it ticks not/
As I'll sit through the tock/
And just wait/
So if patience may take/
Figure 8's then I'll make/
That bargain today, and just barter mistakes/
For she makes me do itâ€¦/
