glossy, glossy, glossy like the magazines. i lost my girl
to a russian from the fashion scene. she took her
cigarettes her wedding dress. that crooked little
soviet... took her to a place that i couldn't find. oh my
god! i cant believe she's gone. oh my god! i cant
believe it took so long. this is a rescue attempt, with no
attempt. this is a rescue attempt, with fuck all intent.
don't say that unless you really mean it. don't come
back unless you really want to. don't say that unless
you want to party. don't come back unless you want to
disco. i lost my girl to a russian from the fashion scene.
don't say that unless you really mean it. don't come
back unless you really have to. don't say that unless
you want to party. don't come back unless you want to
disco
