Been on appeal, long as long ago  
I've been pacing for me to call  
And it follows me like a ghost  
I've been pacing for me to call.  
I want to know  
I want to know  
When i try to spin it all from gold  
It just tears in a bigger hole  
I wanna feel it so close

It's been waiting for me to crawl.  
I want to know  
I want to know  
I feel your soul  
I hear your soul  
And i want to know -  
Did you ever wonder if i'd come home?  
Did you ever wonder if your dreams weren't alone?  
I want to know.
