I have seen
It feels like home in a dream
Wake to the trees
And shadows on the sheets
Never ever gonna break my heart
Cause you never ever ever knew it from the start
It feels like rain wants to come
But how can there be a silver line with no clouds in the
Sky?
Song on repeat
It's the closest you'll ever be (to me)
Now I see
Why it feels like home in a dream
Never ever gonna break my heart

Cause you never ever ever knew me from the start
It feels like rain wants to come
But how can there be a silver line with no clouds in the
Sky?
Never ever gonna break my heart
Cause you never ever ever knew me from the start
It feels like rain wants to come
But how can there be a silver line with no clouds in the
Sky?
In the sky
In my sky
